Quality education and opportunity for all students to succeed

Call for Enrichment Providers

San Ysidro ESD is pleased to announce an exciting new partnership with [6crickets](#) to manage and support an expanded learning opportunity program starting in Fall 2023. The goal of the program is to bring the best, most-engaging, and equitable enrichment programs to our students to develop the whole child and help them explore their interests, discover their passions, love learning, and build social-emotional support through choice-driven, interest-driven, project-driven teamwork. Our enrichment programs will be in-person and will teach STEM, art, chess, performing arts, sports, and more.

The approach we take is *community enrichment* where we partner with quality enrichment providers and community partners to teach the programs on school campuses or virtually. We firmly believe that this approach fosters a win-win-win-win community: win for our students to access the best enrichment, win for our families to have the best out-of-school time support, win for our community partners and small businesses to impact more children, and win for the schools to have an efficient, high quality enrichment operation.

We are soliciting applications from passionate enrichment organizations, businesses, community partners, and individuals who love creative teaching and have a proven track record of teaching engaging enrichment programs. The San Ysidro ESD enrichment programs are district-funded.

[Apply](#)

We look forward to receiving your applications and partnering to bring the best enrichment to San Ysidro ESD students. If you have any questions, please email support@6crickets.com. Thank you!

About San Ysidro ESD :

The coastal community of San Ysidro is located 15 miles south of San Diego and lies adjacent to the United States-Mexico International Border. Often described as “The Gateway to Mexico ,” San Ysidro attracts a tremendous number of tourists annually, making it the busiest border crossing in the world.

The residents are predominantly Hispanic/Latino, but the community is enriched with a multicultural population of Filipinos, African-Americans, Asians, Caucasians, and American Indians. Most of the land, extending eastward from the heart of the community, is being developed or awaiting development.

San Ysidro’s location and near perfect year-round climate offer outstanding recreational activities for ocean, mountain and desert enthusiasts. Popular pastimes include boating, fishing and attending professional sports games. The world famous San Diego Zoo, Sea World, Lego Land and the San Diego Wild Animal Park are located nearby. Cultural opportunities include art galleries, museums and theaters in an area with a rich historical background.

Housing is easily obtainable in the city or in several nearby communities. Many universities, community colleges, and private colleges are within easy driving distance.

About 6crickets: The mission of 6crickets is to bring the best enrichment to every student in every school. We empower districts and schools to organize community partners to teach after-school and summer enrichment programs directly on school campuses. Core to the 6crickets' solutions is the one-stop cloud platform that seamlessly interconnects districts, schools, providers, and families. This way, we can significantly automate and streamline the management. 6crickets is backed by the National Science Foundation and has served 3.3 million enrichment learning hours taught by thousands of providers at 588 schools in 122 districts in 29 states.
