SUPERINTENDENT

Gina Potter, Ed.D.

JANUARY 2021 LAUNCH OF BLENDED LEARNING PROGRAM OPTION

On September 17th during a regular board meeting, our district determined that the launch of the Blended Learning Program option will be phased in for all schools in January 2021, with permission from our state and county health officials. COVID safety concerns specific to our district's geographic region served as a key factor in the latter decision. The Blended Learning Program will provide in-person instruction two days per week at school for students with online academic programming for the other three days per week. Our district will continue to offer a robust Distance Learning Academy for all students districtwide through December 18, 2020. In January 2021, students will either participate in the Blended Learning Program or the Distance Learning Academy based on family choice.

All schools have sent out a **Family Survey #3** asking families to determine if they prefer their child/ren remain in the Distance Learning Academy until the end of the school year (June 2021) or if they prefer their child/ren participate in the Blended Learning Program when it becomes available. Due to staffing limitations our district is not able to ensure that space will be available for parents to switch their child/ren to a different instructional program between January to June 2021. Approximately 64% of our families have completed this survey as of September 21st... thank you! Schools will be contacting families the weeks of September 21st and September 28th who have not yet responded to ensure we have their instructional program preference. The district asks that all responses be received **no later than Friday, October 2nd** so our district can make staffing plans accordingly.

In October 2020, our district will offer a free virtual tutoring program for all students districtwide. Parents and teachers may refer students to participate in the tutoring program. Please stay posted for the virtual tutoring program application. The YMCA will provide the virtual tutoring program to our students.

Also in October 2020, our district will open a limited in-person day program for elementary and middle school students. This program will support students with logging into their classes throughout the school day and will provide both breakfast and lunch meals to students. Applications will be available soon. The criteria for qualifying for this program will be indicated on the applications.

All school offices and the district offices are now open to provide support to families at least 4 hours per day. School office hours schedules are in the chart below. For safety reasons, families and staff are required to follow the county health department's COVID safety guidelines when coming to any school or district facility: 1) Wear a face mask; 2) Social distance at a minimum of 6 feet; 3) Do not come if you have COVID or any COVID symptoms; and 4) Wash your hands frequently.

VIRTUAL PRESS CONFERENCE WITH PARENT INSTITUTE FOR QUALITY EDUCATION (PIQE), AT&T AND SYSD ANNOUNCING THE DISTANCE LEARNING AND FAMILY CONNECTIONS FUND

On Tuesday, September 15th Board President, Humberto Gurmilan, and Superintendent, Dr. Gina Potter, had the pleasure of participating in a virtual press conference to acknowledge and thank PIQE & AT&T for their generous donation of 30 tablets to thirty of our district parents. We are also fortunate to be recipients of part of the \$100,000 donation given to PIQE to help California families transition to Distance Learning during this COVID-19 pandemic. The Virtual Press Conference announced and highlighted AT&T's Distance Learning and Family Connections Fund created to provide parents, students and teachers tools they need. The fund also provides resources to maintain meaningful connections and bonding opportunities for those isolated from family and friends.

PIQE hopes this is the beginning of an ongoing relationship with AT&T and other businesses who can help them provide the tools, technology and digital literacy support our families need to better support their children at home and continue to support and build relationships with their teachers and schools.

PIQE and SYSD have a great story to share on how when we prioritize families we can create a stronger system of support. PIQE will be using these funds to create one-to-one support for SYSD families to help bridge them to resources and better understand and navigate the digital world. Once onboarded to a virtual platform and then through our curriculum, we help build a virtual community where families, teachers and support resources come together. Our parents are building skills that will not only support them today, but into the future.
