Governing Board President Named CSBA Region 17 Delegate

SAN YSIDRO – Humberto Gurmilan, Governing Board President, has been named a Delegate to the California School Boards Association (CSBA) Delegate Assembly as a representative of Region 17. This region, representing San Diego County, which consists of 24 delegates from various school districts, is a vital link in the Association's governance and sets the general policy direction. Delegates work with member boards, the CSBA Board of Directors and Executive Committee to ensure that the interests of California's school districts and county offices of education are promoted, according to the CSBA nomination memorandum.

"I am honored to have been chosen as a Delegate", said Board President Gurmilan. "I'm proud to represent San Ysidro School District and all San Diego County school districts to ensure that our voice is heard and every student has the opportunity to succeed and receive the best education possible".

President Gurmilan has served on the SYSD Governing Board since December of 2018. He was elected Board President in December of 2019. In the past year, he has immersed himself in his role by consistently participating in district events, engaging with all district stakeholders including students, parents, staff and community and ensuring that the district is fulfilling its obligation to provide a quality education to all students..

As a Delegate, President Gurmilan will serve a two-year term beginning April 1, 2020 through March 31, 2022. He will be required to attend two Delegate Assembly meetings tentatively scheduled for May and December of 2020.

As stated on its official website, the California School Boards Association (CSBA) is the nonprofit education association representing the elected officials who govern public school districts and county offices of education. With a membership of nearly 1,000 educational agencies statewide, CSBA brings together school governing boards, and administrators from districts and county offices of education to advocate for effective policies that advance the education and well-being of the state's more than 6 million school-age children. A membership-driven association, CSBA provides policy resources and training to members, and represents the statewide interests of public education through legal, political legislative, community and media advocacy.
