Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

A. Salaries and Benefits - Other General Administration and Centralized Data Processing

1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation. _____

B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero. 0.00

Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

A. Indirect costs incurred in the current year (Part III, Line A8)	4,281,445.61
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	592,653.91
2. Carry-forward adjustment amount deferred from prior year(s), if any	(47,081.26)
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (9.73%) times Part III, Line B19); zero if negative	0.00
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (9.73%) times Part III, Line B19) or (the highest rate used to recover costs from any program (9.73%) times Part III, Line B19); zero if positive	(858,169.63)
D. Preliminary carry-forward adjustment (Line C1 or C2)	(858,169.63)
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	5.86%
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment (\$-429,084.82) is applied to the current year calculation and the remainder (\$-429,084.81) is deferred to one or more future years:	6.59%
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment (\$-286,056.54) is applied to the current year calculation and the remainder (\$-572,113.09) is deferred to one or more future years:	6.84%
LEA request for Option 1, Option 2, or Option 3	1
F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected)	(858,169.63)

Approved indirect cost rate: 9.73%
Highest rate used in any program: 9.73%

the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 1999).

There is a growing awareness of the need to address the needs of people with mental health problems, and the importance of providing them with appropriate services. However, there is a significant gap between the current needs of people with mental health problems and the services that are available to them. This gap is due to a number of factors, including a lack of resources, a lack of training for health professionals, and a lack of awareness of the needs of people with mental health problems.

One of the main reasons for the gap between need and service is a lack of resources. There are not enough mental health professionals to meet the demand for services, and there are not enough resources to provide the services that are needed. This is particularly true in the area of community mental health services, which are essential for the prevention and early intervention of mental health problems.

Another reason for the gap is a lack of training for health professionals. Many health professionals do not have the necessary training to deal with people with mental health problems, and this can lead to a lack of confidence and a lack of effectiveness in their work. This is particularly true for general practitioners, who are often the first point of contact for people with mental health problems.

A third reason for the gap is a lack of awareness of the needs of people with mental health problems. Many people do not understand what it is like to have a mental health problem, and this can lead to a lack of empathy and a lack of understanding of the needs of people with mental health problems. This is particularly true for the general public, who often have a lot of misconceptions about mental health problems.

There are a number of ways in which the gap between need and service can be closed. One way is to increase the number of mental health professionals and to provide them with the necessary resources. Another way is to provide health professionals with the necessary training to deal with people with mental health problems. A third way is to increase the awareness of the needs of people with mental health problems among the general public.

One of the most important ways in which the gap can be closed is by providing people with mental health problems with the services that they need. This includes a range of services, from counselling and therapy to medication and hospital care. It is essential that these services are provided in a way that is appropriate to the needs of the individual, and that they are provided in a timely and effective manner.

There are a number of challenges that need to be overcome in order to provide people with mental health problems with the services that they need. These include a lack of resources, a lack of training for health professionals, and a lack of awareness of the needs of people with mental health problems. However, if these challenges can be overcome, it is possible to provide people with mental health problems with the services that they need, and to reduce the gap between need and service.
