

School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.
An IPM plan is required if a school district uses pesticides¹.

District IPM Coordinator	IPM Coordinator's Phone Number	Email Address

IPM statement

It is the goal of SAN YSIDRO SCHOOL DISTRICT to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

The San Ysidro School District uses an Integrated Pest Management (IPM) approach for managing insects, rodents and weeds. From time to time, it may be necessary to use pesticides registered by the Environmental Protection Agency to manage a pest problem. A pesticide will only be used when necessary, and will not be routinely applied. When a pesticide is necessary, the school will try to use the least toxic product effective. Notices will be posted at these areas at least 24 hours prior to application and for 72 hours after the application.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Lead Gardener (Daniel Camberos)	Supervises IPM, Compliance, oversees IPM implementation and landscaping/custodial staff. Provides notices of individual pesticide applications and postings.
Director of Maintenance, Operations, Transportation and Facilities	IPM Decisions and Ensures that District is compliant with Healthy Schools Act requirements.
School Site Principals	Makes requests for IPM Coordinator to evaluate if pesticide application is required.
Custodial Staff	Frequently monitors for pest presence and maintains areas sanitized/clean for prevention.
Human Resources and Educational Services	Provides Annual Notifications to Employees and Parents.

Pest management contracting

- ☒ Pest management services are contracted to a licensed pest control business.
Pest Control Business name(s): Lloyd Pest Control - as needed // Aardvark Ant & Pest Control Inc. - as needed
- ☒ Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: School staff and Pest Control Company

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by District Custodial and School Staff and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Sticky monitoring boards are placed in the kitchen areas and are checked weekly by custodial staff. Visual sightings and site/location walkthroughs.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Areas cleaned regularly
Fleas	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Check that animals are not nesting in or around areas where problem exists.
Roaches	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Areas cleaned regularly
Weeds	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Landscaping regularly
Gophers	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Regular maintenance
Rats/Mice	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Regular maintenance

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

Name of Pesticide	Active Ingredients	Purpose
320 Disinfectant Bathroom Cleaner/Spring Clean	Quaternary ammonium compounds, benzyl-C12-16-alkyldimethyl, chlorides / Octyl decyl dimethyl ammonium chloride / 1-Octanaminium, N,N Dimethyl-N-octyl, chloride / 1-Decanaminium, N-Decyl-N,N-demethylul-,chloride	Disinfect surfaces & equipment
710 Multi-Purpose Disinfectant Cleaner	Quaternary ammonium compounds, benzyl-C12-16alkyldimethyl, chlorides / Octyl decyl dimethyl ammonium chloride / 1-Octanaminium, N,N Dimethyl-N-octyl, chloride / 1-Decanaminium, N-Decyl-N,N-demethylul-,chloride, / Ethanol	Disinfect surfaces & equipment
Advion Cockroach Gel Bait *	Indoxacarb	Control cockroaches
Audible 90	Glycerin, diethylene glycol and alkyl polyglucoside	Nonionic Surfactant
Brandt	Lecithin and Alcohol ethoxylate	Surfactant for herbicides
Diquat Herbicide Alligare	Diquat Dibromide	Herbicide
Ditrac Ground Squirrel Bait	Diphacinone	Control of Squirrels
Dragnet® Sfr Termiticide/Insecticide	Permethrin	Control fleas and other insects
Drive XLR8	Dimethlamine salt of quinclorac	Herbicide - Control weeds
Final All-Weather Blox*	Bromadiolone	Rodents (outside)
Fusilade II Turf and Ornamental Herbicide	Fluazifop-P-Butyl	Control weeds
Control Solutions Martins Gopher Bait*	Strychnine Alkaloid EPA 53883-23	Gopher Bait
Avalon Gopher Bait*	Strychnine Alkaloid EPA 5042-34	Gopher Bait
Bell Laboratories Zinc Phosphide Oat Bait*	Zinc Phosphide EPA 12455-102	Gopher Bait
PurTabs	Chlorine (Gas)	Disinfect Surfaces

PT®Alpine®Cockroach Gel Bait Reservoir*
Roundup Pro Max Herbicide
Roundup QuikPRO
SedgeHammer+
Speed Zone Broadleaf Herbicide for Turf
Surflan A.S. Herbicide
Tempo SC Ultra Premise Spray
Termidor 9.1% SC.*
TriTek
Turflon® Ester

Guanidine
Glyphosate, N-(phosphonomethyl) glycine
Glyphosate,
HHalosulfuron Methyl (75.0%)
Decamba
Oryzalin
Cyfluthrin
Phenyl Pyrazole
Paraffinic
Triclopyr

Control Cockroaches
Controls weeds
Controls weeds
Herbicide- Control Weeds
Control grass in ground cover
Prevent weeds in planters
Control ants and other insects
Control ants and other insects
Plant diseases, fungicide, pest control
Herbicide - Control weeds

* May be applied by outside vendor

Healthy Schools Act

- ☒ This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 – 17613, 48980.3; Food & Agricultural Code Sections 13180 – 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- ☒ Pesticide specific safety training (Title 3 California Code of Regulations 6724)
☒ School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

- ☒ Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- ☒ This IPM plan can be found online at the following web address: www.sysdschools.org Also available upon request
☐ This IPM plan is sent out to all parents, guardians and staff annually.

Review

- ☒ This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: September 9, 2020

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature: _____

Date: February 4, 2020

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)
